20. ABSTRACT (Continue on reverse side if necessary and identify by block number) This study was conducted for the Defense Manpower Data Center under Contract MDA 903-79-C-0200. Recent trends in the geographical distribution of Non-Prior Service accession results are displayed and evaluated in this report. Trends are addressed for a number of subsets of total DoD NPS accessions: Male versus Female; Black versus all races, High School Graduates versus total accessions; Mental Group I and II, III, and IV versus total accessions and service versus service. Population trends are compared with accession trends and trends in monthly level loading are also discussed in the report. The study concludes that a number of these trends may indicate the existence of current or future problems in recruiting.

### I. INTRODUCTION

1.1 This volume contains the figures and tables referred to in Volume I of Presearch Technical Report No. 454, Volunteer Roadmaps Update.

1.2 The figures and tables referred to in Section II of Volume I appear in Section II of this volume and are labeled Figure 2. 1, Figure 2.2, etc. The figures and tables referred to in Section III of Volume I appear in Section III of this volume and are labeled Figure 3.1, Figure 3.2, etc.

PRESEARCH INCORPORATED

II. OVERVIEW FIGURES AND TABLES

2.1 This section contains the figures and tables referred to in Section II, Volume I of Presearch Technical Report No. 454, Volunteer Roadmaps Update.
